

# Missouri Family Health Council, Inc.

A private, nonprofit organization, Missouri Family Health Council, Inc.'s (MFHC's) mission is to champion access for every individual to culturally sensitive, quality, sexual and reproductive health education and services.

We are dedicated to improving quality reproductive health services in Missouri through our programming, which currently includes administering the federal Title X (ten) program and *The Right Time* initiative.

Our programming and advocacy is focused on removing cost barriers, improving access, contraceptive equity, and supporting health centers through quality training, analysis, and collaboration.

**1**

**PROGRAMMING**

We're proud to lead *The Right Time* initiative, as well as the federal Title X (ten) family planning program for the state.

**2**

**POLICY & ADVOCACY**

Our advocacy program seeks to increase health equity and access to reproductive and other safety net services through stakeholder engagement, mobilization, and advancing a shared policy agenda.

**3**

**COLLABORATION**

We recognize the importance of partnership and alliance in healthcare, which is why we're committed to collaboration in all aspects of our work.

**4**

**FUNDING**

Our funders and partners are committed to our mission, and we're continually seeking funding opportunities to support our network.

## TITLE X

Established in 1970, Title X is the nation's first and only federal program dedicated to providing reproductive and sexual healthcare. Title X primarily serves lower-income populations with low- to no-cost, confidential, culturally sensitive healthcare services. MFHC is the state's sole Title X grantee.

## THE RIGHT TIME

MFHC also leads *The Right Time*, a six-year contraceptive access initiative of Missouri Foundation for Health. This program seeks to address persistent health disparities and inspire individuals to take control of their own health by providing low- to no-cost contraception to all who need it.

We're proud to support systems of care throughout the state, with particular emphasis on safety net providers, in delivering client-centered reproductive healthcare to all who seek services.

MFHC's diverse network of health centers includes federally-qualified health centers (FQHCs), health departments, community action agencies, hospitals, and standalone family planning clinics.

Our reproductive health network is comprised of 95 clinics, providing access in 63% of the state.

## OUR ADVOCACY

MFHC is committed to addressing systemic barriers that decrease health equity and impede access to reproductive healthcare and other safety net services.

We collaborate with health advocates across the state to engage stakeholders, mobilize communities, and advance a shared policy agenda that includes increasing access to family planning, improving infant and maternal health, reducing sexually transmitted infections (STIs), and strengthening family security.
